PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1Plc (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Kiyev Ordnance Depot Stalinka East is located on the south edge of Kiyev (Figure 1). This secured installation covers approximately 80 acres and contains 6 probable explosives storage buildings and 2 support buildings. The depot is located in an old earthen fort, the walls of which serve as re-

vetments for the buildings (Figures 2 and 3).

The area was covered by 15 KEYHOLE missions from June 1961 through September 1964. No changes in the facilities were observed, and activity on all coverage during this period appeared to be very light.

DESCRIPTION OF INSTALLATION

Railroad Service

The closest rail facilities are 2 rail sidings located 0.5 kilometers (km) west-northwest.

Ammunition Storage Area

The depot contains 6 probable explosives storage buildings and 2 support buildings.

Road Service

The depot is served by a secondary road which connects with the city streets.
